A TABLE COLLECTED

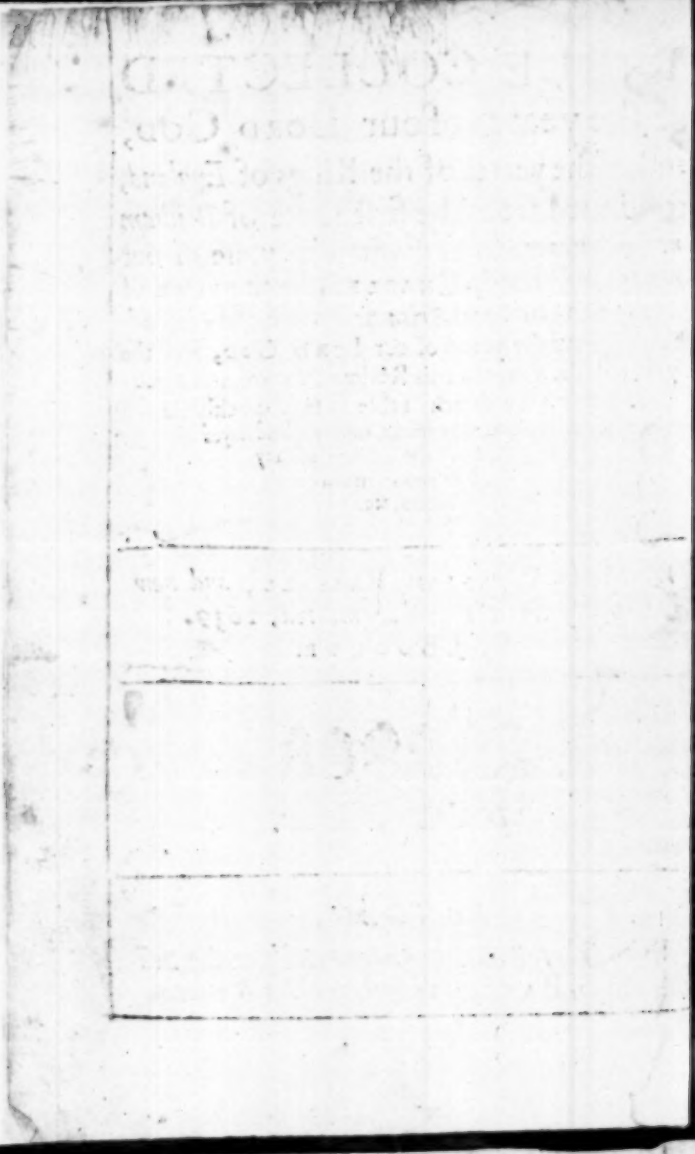
of the yeares of our LORD GOD, and of the yeares of the Kings of *England*, continued from the first yeare of *William the Conquerour*, untill the fifteenth yeare of our Soveraigne Lord, CHARLES, by the grace of GOD, King of *Great Britaine*, *France*, and *Ireland*, shewing how the yeares of our LORD GOD, and the yeares of the Kings of this Realme concurre and agree together: by which Table it may quickly be counted how many yeares, moneths, and dayes be past since the making of any Evidences, Instruments, &c.

Written by WILLIAM RASTALL, *and now newly corrected and augmented*, 1639.

By J. BOOKER.

LONDON,

Printed by *R. B.* for *Andrew Hebb*, at the *Bell* in S. PAULS *Church-yard*. 1639.



AN INSTRUCTION to the READER, for the understanding of this TABLE.

Courteous Reader,

YOU shall understand that there hath sometimes happened mistakes in the not rightly understanding of these and some other Tables of this kinde for the computing of the termes of Leases, Evidences, &c. But if you will be pleased to know that the yeare here in England hath different beginnings: As, Astronomicall, on the first of January, as our Almanacks have it; Ecclesiasticall, or Civill, which is on the 25 day of March; and Regnall, which beginneth the Kings Reigne, and that it may happen some Writtings beare date in the yeare of the King, without mentioning the yeare of our LORD GOD, which differences, not understood, have caused er-

roys. Therefore obserue in this Booke, That,

The first number before the Moneth of March, sheweth the beginning of the yeares of our LORD GOD, which (after the Computation of the Church of England, by which this Table proceedeth) beginneth the 25 day of March.

The second number following the moneths, sheweth the day of the Moneth, in which euery yeare of the Reigne of euery King began.

The third number sheweth the yeares of euery King.

As for example, the first number before the first moneth of March, sheweth, that the yeare of our LORD GOD 1067. being the 25 day of March and so forth euery yeare of our LORD GOD.

The first two numbers following the first moneth of October, shew that the 14 day of October in the yeare of our LORD GOD 1067. began the first yeare of the Reigne of King William Conquerour.

The second 2. numbers following the second Moneth of October, shew that the 14 day of October, in the yeare of our LORD GOD 1068. began the second yeare of the Reigne of King William Conquerour.

The two numbers following the Moneth of September, in the yeare of our LORD GOD 1087. shew that the 9 day of September in that yeare of our Lord God 1087. began the first yeare of King William Rufus.

And the 2 numbers following the moneth of September, in the yeare of our Lord God 1088. shew that the 9 day of September

th

that yeare of our Lord God 1088. began the second yeare of the Reigne of King William Rufus.

And thus shall you by this Table know in what yeare of our Lord God, and yeare of the Reigne of any King of England since the Conquest began.

And thereby shall ye readily try out, in what yeare of our Lord, and in what moneth any Euidences, Instruments or Writings were made, that haue the dates of the yeares of the Kings Reignes, and not the dates of the yeares of our Lord God.

And likewise by this Table shall ye quickly collect and account, how many yeares, moneths and dayes be past, since the making of any Euidences, Instruments, or Writings that haue the date of our Lord God, or the date of the Reigne of the Kings of England since the Conquest.

As for example: to vse M. Hoptons second Question, he saith he hath a Lease granted for 60 yeares, bearing date the eighth of January in the sirth yeare of King Edward the sirth: And he would know 1612 how many yeares were expired.

I seeke for the sirth yeare of King Edward the sirth currant, as it is here placed, and finde that the Regnall yeare began the 28 of January 1552, to which 60 yeares being added, they make vp 1612, in which yeare on the 28 of January was the expiration of the Lease.

So likewise we say this yeare 1639 is the fifteenth yeare of King CHARLES currant according to this Computation: But M. Hopton in his Concordance calleth it the 14 yeare compleat, yet if you remember

what hath beene said touching the yeares of our LORD GOD which we call Ecclesiasticall, or ciuill; and the yeares Regnall, the differences will resolue themselues, and both M. Hopton and M. Raistall, whose Computation this is, will agree in one truth.

His fruere, & vale.
